

Michael Beck is a results-driven global leader with a distinguished track record in process reengineering, artificial intelligence, STEM education, and innovation. As the founder of Code for Kids, a nonprofit dedicated to expanding AI and STEM opportunities, he has played a pivotal role in bridging the digital divide for Cincinnati's underserved youth. His initiatives not only empower the next generation of innovators but also contribute to the city's emergence as a leading hub for AI and technological advancement—driving economic growth for our region. Recognized for his impact on underserved communities, Michael has received numerous accolades, including the Spirit of Cincinnati Award, CAA's Bridge Builder Award, and the LULAC Presidential Commendation Medal.
